PRESS RELEASE

ProSphere-led VETS GWAC Group Moving Forward

Alexandria, VA, September 30, 2014: Rodger Blevins, President and CEO of Pro-Sphere Tek, Inc. (ProSphere), a rapidly growing Service Disabled Veteran-Owned Small Business (SDVOSB), is championing an effort to encourage the government to fully utilize the General Services Administration (GSA) Veterans Technology Services (VETS), Governmentwide Acquisition Contract (GWAC) vehicle.

For the past several years, VETS GWAC, which provides flexible federal access to customized IT solutions from a qualified, diverse pool of SDVOSB's, has not been the most robust contract vehicle. In response, Blevins and other VETS GWAC contract holders have teamed up with the National Veteran Small Business Coalition (NVSBC) to examine the reasons behind the significant decline and what industry advocates can do to revitalize the program.

"As a group, we share insights into how federal agencies select acquisition instruments and we work together to open lines of communication with decision-makers to encourage them to tap the full potential of the VETS GWAC program," said Blevins.

The group, officially entitled the *NVSBC VETS GWAC Industry Forum*, held their initial meetings this summer in Washington, DC and during the VETS 2014 Conference in Reno, Nevada. Blevins and other members recently traveled to Kansas City to meet with the GSA Small Business Contract Team on how to generate new opportunities through the vehicle.

VETS GWAC supporters describe the program as an important element of a broader, presidentially-directed effort (Executive Order 13360) to provide greater economic opportunity to those who have sacrificed in defense of our nation.

For more information about the *NVSBC VETS GWAC Industry Forum* and how you can support its efforts, please contact ProSphere at (571) 227-9700 or online at www.Pro-SphereTek.com.

About ProSphere

ProSphere, an ISO-9001-certified SDVOSB, provides Information Technology and Program Management solutions to Government clients. Founded in June 2006, ProSphere has grown steadily as a direct result of our employees' dedication, service delivery excellence, trusted partners and competitive pricing.
